-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 6, 8, 10-12, 16, 18 and 20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Henning et al. (Patent No. 5,947,812). Examiner's Note: Column 5, lines 13-57.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Henning et al. in view of the European patent (Document No. EP 1099598 A2) . Henning et al. discloses the claimed invention except for the hook members. The European patent teaches that it is known to provide a removable bulkhead with hooks as shown at 3, 4. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the bulkhead of Henning et al. with the hook members, as taught by the European patent in order to provide a removable bulkhead which can be removed and reinstalled without the use of handheld tools.

Art Unit: 3749

5. Claims 9, 13 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Henning et al. in view of Ziegler et al. (Patent No. 6,364,388). Henning et al. discloses the claimed invention except for the filter element being located in the plenum. Ziegler et al. teaches that it is known to provide a filter in the plenum as set forth at column 5, lines 26-35. It would have been obvious to one having ordinary skill in the art at the time the invention was made to relocate the filter element of Henning et al. to the plenum, as taught by Ziegler et al. in order to provide another conventional location for the filter element.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Election/Restrictions

7. Claims 4, 5, 7, 14, 15 and 17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 24, 2005.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
